INTERVIEW SUMMARY

September 20, 2006

Sir:

On July 11, 2006, Applicants' below named representative contacted Examiner Jerabek and asked whether Examiner Jerabek reviewed WO90/07364 (that corresponds to JP 03-503016), including the English language Abstract in WO90/07364, which Applicants filed along with the Information Disclosure Statement (IDS) on June 7, 2006, although WO90/07364 was not listed in the IDS. Examiner Jerabek stated that WO90/07364, including an English language Abstract, had been scanned into the USPTO database as part of the file of this Application, that he had considered that reference on its merits, and decided that Applicants' claimed invention patentably defined over the art cited in the aforementioned IDS, including JP 03-503016, *per se*, and as explained in the English language abstract portion of corresponding WO90/07364.
